

Biarca Patrol is a cloud security and compliance solution built for Google Cloud Platform (GCP). Patrol has proven to be a valuable tool to identify the security and compliance vulnerabilities for cloud assets. Organizations can establish the security posture with custom rules implementing best practices and compliance adherence with standards such as HIPAA, NIST, CIS, CSA and PCI . Biarca Patrol's always on and always secure mission will allow users to auto remediate violations to maintain a secure infrastructure.

We are excited to offer the Biarca Patrol Capture Assess and Remediation (CARE) - a Proof of Value program, for your secure and compliant infrastructure. CARE is a 30 day proof of concept program that provides an opportunity to evaluate Biarca Patrol by assessing a specific project for deviations from your desired compliance framework, security best practices, and providing remediation suggestions.

## What does CARE Include?

Pre-requisites:

1. Discuss goals, desired compliance framework, security posture, and any additional requirements for compliance alignment.
2. Select a project with less than 2000 assets. Most projects average 300 assets.

### Capture

- Install Biarca Patrol on the selected project
- Develop a custom framework with security and compliance goals
- Perform a project scan to identify all assets with visual tree structure

Fees: No Cost

### Assess

- Scan project assets and compare against the custom framework of compliance and security best practices
- Determine deviation and vulnerabilities
- Deliver Scan Report with deviations and the vulnerabilities

Fees: No Cost

### Remediate

- Provide remediation recommendations to resolve compliance deviations
- Compare Biarca Patrol automation vs. manual remediation
- Provide Remediation Recommendation Report

Fees: One Time Remediation Report Fee - \$149
